GENERAL PARTS GUIDE V3

You can't find the part you are searching for?

Austek Play has thousands of items in our spare parts range. This guide contains only the most popular items. If you require a part that you can't find in this catalogue, simply call your state representative, and they will assist you with finding the correct part you need.

Need more help?

Austek Play staff are qualified playground auditors and safety inspectors, with years of experience within the commercial playground industry.

Please contact us and we will guide you in the right direction. On most occasions we will be able to help you over the phone or via email, however, we can also meet you on site to better determine the parts you may require.

Need an ongoing maintenance program?

To protect your investment and give you peace of mind that you are fulfilling your obligations under the Duty of Care, Austek Play can tailor a specific playground maintenance plan for your playground.

Contact us to learn more about our playground maintenance programs.
